Memorial Park Fund Lagging

CONTRIBUTIONS ARE SLOWING DOWN TO A VERY LOW DRIBBLE

Entering the third week of Memorial Park fund collections the financial committee reports contributions are slowing down to a very slow dribble. With all of us intending to do our 'bit' it seems that we are just waiting for an opportune time and so put it off from day to day. We only urge you make contribution as soon as possible. It will lighten the work of all the committees and assure ready capital for the boys doing the job. Don't put it off longer than your next trip in town.

The Bank, Post Office or Community Club are the collecting agencies and either of them will issue your official recept.

Is your name of the roster of East Jordan's Big Parade?

Centennial July 2nd - 3rd

TRAVERSE CITY MAKING PLANS FOR BIG CELEBRATION

To prevent July Fourth vacations from running into a big traffic jam, Traverse City's Centennial celebration will be definitely ended with a fireworks display over Grand Traverse Bay on the night of Thursday, July 3.

Independence Day will bring thousands of vacation cars north carrying passengers whose chief aim is to get away from the crowds for the week end holiday and a traffic bottleneck in and around Traverse City, due to the Centennial celebration would be an annoyance and might seriously hamper their holiday schedule..

In recent years July Fourth has become a dispersal day in the vacation area of Northestern Michigan. No longer do crowds gather to see parades and hear firecrackers, but rather they make family plans for picnics, fishing trips and sightseeing tours and Traverse City feels an obligation to these crowds to keep the highways as clear as possible.

So the Centennial observance will be held on two big days, Wednesday and Thursday, July 2 and3, days well packed with parades and pageants and other events typical of a community celebrating its 100th birthday.

One of the features of the final day will be he beard judging contest in which the winners will be selected from among 2,000 bewhiskered males. This will be Thursday evening and will be followed immediately by the public shaving contest in which a six months accumulation of whiskers will disappear and families, broken by beards, will be reunited.

Cub Scout Pack Picnic at E. J. Tourist Park Monday Evening, June 30

The monthly Cub Scout Pack Meet will be held this Monday evening, June 30, at 6:30 p. m. at the East Jordan Tourist Park, and will be in the form of a picnic.

Parents of Cub Scouts are to bring, in addition to their whole families, their own sandwiches, dishes and silverware, and a dish to pass. To provide a variety, parents of Cubs of Den 1 and 3 are requested to bring either salads or a hot dish; and those of Dens 2 and 4, desserts.

Pop will be furnished for the kids, and coffee, cream and sugar for the adults.

Howard Sommerville is in charge of games, and it is reported that the dads will meet stiff competition in a soft ball game with the Cubs, one Cub having already informed his dad, "Aw, that'll be easy to win."

Former East Jordan Resident Dies At Ann Arbor

Ezra Moore 85 died at his home, 1026 Canal St. Ann Arbor after a long illness. He was born July, 29, 1861 in Deerfield, Mich., and had been a resident of Ann Arbor since 1915. Moving there from East Jordan.

He was employed for a number of years by the City Park department and previous to his retirement four years ago was care taker at Riverside Park. He was married September 7, 1907 to Lilymay Bodenoff of Charlevoix.

Surviving are he wife; a son, Donovan Moore and a daughter Mrs. Ruth Ellen Field, both of Berkley, Mich., two grandsons and one great-great grand-daughter.

Funeral services were held at 2:00 o'clock Wednesday, June 18 at the Muehlig Funeral Chapel with Rev. E. C. Stellhorn officiating. The body was brought here with interment at Sunset Hill Thusday June 19, 1947.

Balance	$43,253.75

This leaves approximately $67.37 per mile of Certified Roads for Maintenance, Construction, etc.

Cost of Maintenance only amounts to $96.53 per mile.

*This item (Special Liquor Tax) expired May, 1947, which at the present writing will leave only $16.24 per mile for Maintenance, Construction in 1947.

It will be noted that the snow removal program for 1946-47 amounted to $32,102.55 or approximately the amount received from the Liquor Tax in the same period. With the loss of the liquor tax revenue and unless funds will be available from some other source, the McNitt (Township) Roads will continue to remain in a deplorable condition with no chance of improvement or the snow removal program must be greatly curtailed in 1947-1948.

East Jordan Tops Alpena

LOCAL INDEPENDENTS DEFEAT STRONG ALPENA TEAM

With "Chuck" Saxton hurling 6 hit ball the local Independents defeated Alpena "Bessers" at Alpena last Sunday.

Crowell, D. Gee and V. Gee had 2 hits apiece to lead the attack off three Alpena pitchers.

East Jordan now has a league record of 3 wins and 1 lost — losing only to Hillman, the League leaders.

Saxton went all the way for the locals with Frank Crowell behind the plate. Alpena used three pitchers and three catchers trying to stop the local attack.

The locals will be back home this week, playing Indian River here Sunday.

MARRIAGE

Glass — Clark

The home of Mr. and Mrs. Samuel E. Rogers was the scene of a very pretty wedding on Friday evening June 20 when their daughter Marvel became the bride of Morrell B. Clark, both of Lansing, in the presence of relatives and a few friends.

The single ring service was read by Rev. Howard G. Moore of the Methodist church before an improvised altar of garden and hot house flowers.

Out of town guests were Mr. and Mrs. Rodney J. Rogers and Miss Bette Berndt of Ann Arbor; Forest Rogers of Lansing; Mr. and Mrs. Herman Berndt, Vanderbilt.

A reception followed the cermony.

The newly weds are at home at 926 W. Shiawassee, Lansing.

Alm — Daley

Freda Alm, daughter of Mr. and Mrs. Fred Alm, was given in marriage by her father to John R. Daley of Syracuse, New York, at 2:30 P. M. Saturday, June 21 in the Christ Lutheran Church, Boyne City. Rev. Norman H. Kuck performed the double ring cermony.

The bride wore a white marquiset over satin gown with long sleeves tapering to a point at the wrist and fitted bodice with lace trimming. A matching lace crown held her finger tip length veil and she carried a white prayer book topped with white marcissus and sweet peas.

Laura Alm was her sister's only attendant and wore a pastel pink gown, with matching head band and carried a colonial boquet.

David Quinn of Syracuse assisted the groom as best man. Edward Roy and Edward Williamson also of Syracuse seated the guests.

A reception was held at the home of the bride's parents after the cermony.

Out of town guests included Mrs. A. P. Daley and daughter, Helen; Syracuse; Mrs. Lois Klatt, Windsor, Ontario; Mrs. Julius Hansen and Mrs. Hans Johnson, Elk Rapids; Mr. and Mrs. Carl Hansen and sons, Donald and Billy, Mr. and Mrs. Henry Cox and daughter Joan, Mr. Wm. Loveland, Mrs. Howard and Miss Ellen Dockery, Traverse City; Mr. and Mrs. Louis Christensen, Chicago, Ill.; Mr. and Mrs. Ed Christensen, Rapid City; Mr. and Mrs. Jerry Crittenden, Gaylord; Curt Hartnell and Mr. and Mrs. Wm. Korthase, Boyne City; Miss Dorthy Shields of Madison, Wis.

The couple are taking a Northen wedding trip and after July 1st will be at home at 8910 Otsego, Detroit.

Bond a Month Plan Under Way

STATE BANK OFFERS PLAN TO THOSE HAVING CHECKING ACCOUNT

The new Bond-a-Month Plan for the regular, automatic purchase of U.S. Savings Bonds by bank depositors is catching on fast, according to R. A. Campbell cashier of the State Bank of East Jordan

"Speaking for our bank," said Mr. Campbell "the number already signed up on the plain has exceeded our expectations. Many are using the plan to build up funds to buy a home, send children through college or realize some dream that takes a considerable sum to attain, but the greatest number, we find, have decided that this plan is tailor-made for setting up income for retirement.

"Since 1900 the average span of life of the American male has increased by nearly 15 years and is now almost 65 years. The female expectancy has increased 16½ years and is now nearly 70. Those who have survived the extra mortality risks of infancy and youth and have arrived at middle age in fair shape can expect to live longer than the average for the whole population, or or at least 70 years for men and 75 for women. Life expectancy is still increasing and by 1960 a little more than one out of every eight Americans will be past 60 years of age. This creates both a public and a private problem of providing for old age.

"Millions of workers have been saving on the Payroll Savings Plan since 1941 to supplement social security and pension income for old age. Self-employed persons in business, the professions, farming, etc., have no social security or pension protection. The new Bond-a-Month Plan, sponsored by the Treasury Department and now offered as a public service to their depositors by more than 90 per cent of the 18,000 commercial banks and branches of the nation, is an ideal way to set up retirement income. For each $18.75 invested in Series E Bonds on this monthly plan, the foresighted citizen will get back $25 a month beginning ten years later and this can be multiplied up to the annual limit of $5000. There is no riskless investment that compares with this in guaranteed return. The more people save while they are earning, the less they will be dependent upon others and the taxpayers in old age."

"Care" Package Overseas Gets Response

Mark Chapter, O. E. S., made a contribution, in Dec. through the local bank "Care" for a Package to be sent over seas.

This is a letter in return, translated by Dr. Beuker.

Paris May 6, 1947.

Dear Sirs: I am the the big sister of the little triplets, Annie, Orlette and Mary Ann Lebrum. I thank you very much for the packages you did send us as they have proven very handy.

My little sisters are actually four months old and are behaving marvelously.They are becoming interesting and amusing and they do smile a lot.. Could you tell me where you learned our address and what impression it has produced upon you?

We are in moderate circumstance (of the middle class)

My father is a painter (of houses and ships) He has been war prisoner for five years. Four times he escaped but unfortunately never succeded completely. Never the less he has now returned in fairly good health notwithstanding all his privations.

If it would please you and your group to become godfather to the little triplets we would feel very happy.

Receive, Dear Sir, my complete expression of gratitude in accepting this my little letter reiterating my thanks.

My three little sisters send you their best wishes.

Jacqueline

P. S. Am sending you a snap shot of the little ones with papa.

USE SPECIAL TRICKS WHEN YOU SEW JERSEY

Rayon jersey is a favorite for summer dresses and blouses because it's cool and doesn't wrinkle easily. If you're going to sew on rayon jersey can be gathered and draped beautifully, but you have to place the gathers evenly. Florence Rann, clothing specialist at Michigan State college, says that gathers put in one place will be heavy and cause sagging.

Designs in printed jersey are usually large, floral figures, colorful affairs or wide stripes. Draping will bring designs closer together and break their boldness.

Don't make a dress of jersey too close fitting because it will stretch and look "baggy." Since jersey does not hold a press you cannot use pressed pleats.

All edges which tend to stretch, such as the waistline, neckline and arm hole, should be stiched right after cutting to prevent stretching. Sew seams from the bottom up and set your machine for a longer stich and looser tension than for other materials.

Every jersey dress needs extra strength at the waistline to prevent streching. Stitch seam binding or preshrunk cotton twilled tape under the waistline seam. Collars, cuffs and front edges may need a light-weight piece of cotton between the layers of of jersey to make it more firm.

Lightning Casualties

It is estimated 400 persons are killed and 800 to 1,000 injured by lightning on farms each year.

Lubricate Lashes

Keep your eyelashes lubricated with a lash cream or oil. Brush them each day with a tiny lash brush. This helps them to curl.

Announcement

To The People of The 11th Congressional District of Michigan

It has been a privilege as well as an honor to serve the people of Northern Michigan in the Michigan State Senate. It is most gratifying to know that my service have met with approval to the extent that I have had no opposition for that office in recent years.

A vacancy has suddenly developed in this Congressional District. Because of my long experience in City and State Government I feel I am qualified to represent this district in the National Congress. I am therefore offering my service and announce my candidacy to fill this vacancy.

If nominated and elected I promise to energetically and faithfully represent the interest of Northern Michigan as well as the State in the National Congress. I appreciate the many endorsements of my work in the Michigan State Legislature and shall consider it an honor and a privilege to serve you in the National Congress if it is your wish.

May I solicit your active support to secure my nomination in the Special Primary Election to be held on July 29, 1947.

Our Heritage From Ancient Israel

LESSON TEXT FOR JUNE 29—Psalm 119:105; Isaiah 2:2-4; Micah 6:1-8.

MEMORY SELECTION—He will teach us of his ways, and we will walk in his paths.—Isaiah 2:3.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute, Chicago.

AT THE end of the road the Hebrew nation may have—yes, should have—stopped to look back and see what it had accomplished. Israel was now in exile, to return only in part, and with greatly limited greatness and glory.

What was God's purpose for Israel? It was threefold:

(1) To be a repository for his truth in the earth.

(2) To be a channel for the coming of the personal Redeemer to the earth.

(3) To be a national witness to the one true God to the other nations of the earth.

The first two they fulfilled. They kept for us the Word of God as revealed in the Old Testament, and from their nation came most of the men through whom the Holy Spirit wrote the New Testament. It was through their nation that the Son of God came as Jesus of Nazareth, our Saviour and Lord.

But they failed to be the witness that God had meant them to be—and for this they came under his judgment.

Were they then a complete failure? Certainly not—our lesson makes that clear in three ways. Teachers will find the scriptures not too well selected, but they do serve as a background for these thoughts. The nation Israel showed us:

I. The Enlightening Word of God (Ps. 119:105).

LET us never forget that the precious Word of God, which is our light on the way through this dark world, came to us through Jewish hands.

The Old Testament, which we come to appreciate more and more as we grow in grace and knowledge of the Lord, was committed to Israel by inspiration of the Holy Spirit, and preserved by the Jewish nation even at the cost of their own lives. Nothing was more precious to them than the sacred Scripture. We owe them a great debt of gratitude, and ought to honor them for their service to God and man.

We may say then that the Bible, unsurpassed in all the world of literature, and beyond comparison as the guiding light for man's heart and life, was given to us through Israel. We could well say a hearty "Thank you" for that right now if we have never done it before!

II. The Exalted Worship of God (Isa. 2:2-4).

THE prophet looks into the future to that glorious and blessed day when the nations shall have learned to live in peace and righteousness, when war shall be no more, and the worship of God shall be the desire and the joy of men.

When will that day come? Will it be brought in by the efforts of the church, or by conferences of national leaders? Not for a moment would we minimize the value of every true effort to spread peace and righteousness through the earth. We honor those who faithfully try to bring concord in the affairs of men.

But the clear teaching of Scripture, which has been so abundantly proved by experience, is that we can expect the delightful condition of which Isaiah speaks only when the Prince of Peace himself has returned to reign, namely, our Lord and Saviour and coming King, Jesus Christ. We look for that day!

In that blessed time Israel shall worship the Lord in the beauty of holiness, even as their history under the hand of God in days past was one of true worship of the Lord.

Here again they made an enduring contribution to the life of the world. Then note their witness to

III. The Effective Work of God (Mic. 6:1-8).

WE HAVE here words of another Hebrew prophet. He speaks of God's plain dealings with his people, his judgment upon their sin, and the need of a careful and a worthy walk before him.

Back of all the admonition and appeal is the remembrance of how God had worked on behalf of Israel, delivering them from bondage, giving them effective leaders, going before them in battle, in fact, proving his goodness and love by his mighty works.

Israel's service for God and man is an example of what God can and will do for those who obey him and walk with him. It is equally true that they thus reveal the inevitable judgment which comes upon a sinful and disobedient nation. Let us not miss that lesson, for we need it today.

KNOW YOUR RADIO

By T. M. Luxford

After a few weeks vacation, which incidentally was without pay, we are back again.

The issue which seems paramount in the minds of all of us is still radio interference. Although results on your radio may not seem to justify the fact that there has been much filtering done to eliminate the noise, we are actually making headway. The noise in certain districts has been greatly minimized, and correspondence with large filter manufacturers has given us the answer to several difficult problems. Our principal trouble sources are fluerescent lights and neon signs. Although methods used to filter these lights some times involve some cut and try tacties, we have positive methods which assure us that such noises can definitely be eliminated. Because of the fact that there are so many of these fixtures it takes time to filter them and, until all of them are taken care of, there will be some manifestation of noise.

The policy which seemed legical and has proven so, was to start filtering in the business district. Here we find our concentrated noise area. This noise is fed into the power lines and carried into the residential sections. It is expected that all business places will have been filtered by the end of September, this year. After that has been accomplished, the more minor cases in the residential sections will be insolated and filtered.

Since initiating this camaign, we have found, in general, that the public has been reluctant in case of interference. It is true that there have been some who have been faithful in reporting but a general tendency of reticence has been indicated chiefly because people have been afraid to report noise caused by neighbors. As examples, we know that many vacuum cleaners, kitchen mixers, electric razors, etc., broadcast noise yet in only one instance have we had the offender pointed out to us. We realize that it may appeal to you in he nature of complaining about your neighbor but we hasten to point out to you again that the offender will be found in time anyway and it will greatly hasten the solution if you will notify us. When we use the word "offender" we may be choosing a seemingly rough term. It is not meant as such. Possibly it would be more diplomatic to call them "conscientious offenders", because, so far, all have shown 100 per cent cooperation when it was pointed out to them that they were disturbing radio reception of others.

At the beginning of this article, we mentioned consulting large filter manufacturers regarding explicit problems. An answer has been found for electric razors interference. A filter for Schick, Knapp-Monarch, Packard, Remington-Rand, etc. has been designed which is highly successful.

in conculsion we want to deviate a little from the interfenence angle and give you a warning. Many radio sets go to the repair shop after each elestrical storm. Some of these storms this year have been blingers. We would like to point out that it is not necessary for lighting to stricke your home to damage your radio. Even though your radio is turned off, if it is left plugged into the power socket, lightning can strike several blocks away and do extensive damage to your set. This due to the powerful electric surge created where lightning strickes and which passes thru the atmosphere into the power lines and thence to your radio. It is powerful enought in many cases to jump the open contacts of the power switch in your radio and do great damage. Pull the plug out during every electrical storm and be safe. An added precaution which pays dividends, if you have an aerial from the set, is to use a lightning arrester well grounded.

Because of wet weather they say that only 7 per cent of the corn has been planted in Michigan. Now that this column is back in the paper again some person asked Paul why all 7 per cent had to be planted in the Herald. Have I got some relatives in town I don't know about?

MICHIGAN STATE MEDICAL SOCIETY

Leading the Way in Health Progress

THE PRESIDENT OF THE UNITED STATES: "The problem of lowering the highway death rate remains one of the nation's most serious problems. It is an appalling fact that 33,500 American citizens were killed in automobile accidents in 1946. I therefore call upon every State and every community in the land to work unceasingly through 1947 to promote highway safety.

"Laws and regulations will be of little avail unless the individual driver holds himself strictly accountable to his own conscience."

That call is to *you personally* to cooperate as a citizen of the United States in helping reduce highway accidents. It is a shameful record when in one year 33,500 lives are sacrificed; 1,150,000 persons are injured and $750,000,000 in property destroyed, resulting in an economic cost to the nation of $2,000,000,000 because of careless, reckless driving.

It is a national problem, but essentially the solution is in your hands. Drive safely—live and let live!

WEEKLY NEWS ANALYSIS

Veto Eliminates 1947 Tax Slash; Truman Asks Air Safety Probe; Even Chance for Good Corn Crop

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

DEATH ON TAXES:
No Reductions

Branding the measure as unsafe, inflationary and unfair to lower income groups, President Truman stamped an emphatic veto on the Republicans' four billion dollar tax reduction bill.

"The wrong kind of tax reduction at the wrong time," Mr. Truman said in his veto message, and immediately elicited from Republican leaders charges that he was following a policy of "tax and tax, and spend and spend, and elect and elect."

The Republican-sponsored bill would have reduced income taxes from 10 to 30 per cent beginning July 1 and would have given an extra $500 exemption to persons 65 or older.

Mr. Truman pointed out that sound fiscal policy requires existing tax rates to be maintained for the present. However, he promised that he would recommend appropriate tax cuts when the right time comes.

He indicated that surplus government revenue would be applied toward reduction of the public debt. It was the Republican plan to divide the surplus between debt reduction and tax reduction.

His Objections

These were President Truman's principal objections against the tax reduction bill:

1. It was unsafe from the standpoint of government finances.

2. Tax reduction now would heighten inflationary trends.

3. It would add to, rather than correct, maladjustments in the economic structure.

4. Surplus income should be used to reduce public debt first.

5. The bill was unfair in that it did not give "a greater portion of relief to lower income groups."

6. If the bill were approved, those inequities would be frozen into the tax system and not readily subject to change.

AIR SAFETY:
Report Asked

Deeply concerned over commercial flying safety, President Truman has named a five-man board of experts to study recent disastrous airline crashes and submit recommendations on what the President and congress should do to promote air transportation safety.

Mr. Truman took this action two days after a Capital Air Lines plane hurtled into a Blue Ridge mountain spur near Leesburg, Va., killing all 50 persons aboard. The Leesburg accident was the latest of three major commercial plane crashes in three weeks in which 146 persons were killed.

James M. Landis, chairman of Civil Aeronautics board, will head the special commission. Other members are: Dr. Jerome C. Hunsaker, chairman of national advisory committee for aeronautics; Theodore P. Wright, civil aeronautics administrator; Milton W. Arnold, retired brigadier general, and H. B. Cox, pilot for American Airlines.

In a letter appointing the board, the President said that he is "deeply concerned" over air transportation safety and wants the recent disasters studied to determine how the findings in the crashes can be utilized to advance air safety.

WALLACE:
'Would Fight'

Back in Washington after a two-month speaking tour across the nation, Henry Wallace pointed out emphatically that the United States and Great Britain "would fight" if Soviet expansion ever reaches the point where it threatens the rich oil fields in Saudi Arabia.

Russia must be told, he said, that such expansion would be resisted by American and British arms.

He revealed that he looked upon Russian expansion as a menace to world peace and that a boundary should be drawn as a limit to Soviet territorial advancement. The boundary, Wallace said, should be Turkey, which he characterized as the queen in a chess game between the major world powers.

The former vice-president said that Saudi Arabian oil should be made available to Russia and other nations as a move to secure world peace, adding that Russia has the right to share Middle East oil.

Reaches Democracy

Ferenc Nagy, who resigned as premier of Hungary when Communists took over, embraces his 4-year-old son, Ladislav, following their arrival at LaGuardia field, New York. Nagy and his family came to the States to escape possible Communist persecution.

CORN OUTLOOK:
Even Chance

Although seriously handicapped by a late start, the nation's corn corp is still given an even chance for a good yield and to mature ahead of frost at normal dates.

Experienced grain men who express that opinion do not predict how far the acreage actually planted will fall below previous intentions, but the reduction, they say, may be surprisingly light. Many farmers have been planting in between rainy spells and some have been working day and night.

In sections where fields have been drowned out by floods it is probable that there will be no replanting because the land would not dry out in time.

On the basis of March reports, farmers intended to plant 87,600,000 acres in corn, but it is not likely now that the planted acreage will be much more than 85 million acres. Based on the record 1946 yield of 37.1 bushels an acre, such an area would produce a crop of approximately 3.15 billion bushels of corn. Last year's record production was 3.28 billion bushels.

Greatest need now is warm weather and sunshine to stimulate growth of the corn.

VENGEANCE:
Chetniks Return

Three important Yugoslavian officials—members of the Communist court which condemned Gen. Draja Mihailovitch to death in Belgrade last year—have mysteriously disappeared recently.

They are believed to have been kidnaped in a resurgence of anti-communist activities by the Yugoslav Chetniks whom General Mihailovitch led in their wartime operations against the Nazis.

Travellers arriving in Istanbul from the Balkans claim that the followers of Mihailovitch, whom were thought to have been stamped out by Marshal Tito's Partisans after the execution of their leader, are steadily gaining strength in their mountain strongholds. They are said to be capitalizing on the increasing dissatisfaction among Yugoslav peasants with Tito's Communist regime.

Mihailovitch

Thousands of peasants, some even members of the Partisan forces, are reported to be either joining or aiding the Chetniks who have sworn eventually to overthrow the Soviet-dominated government.

GASLESS:
Crisis Soon

Moving swiftly toward a crisis, the nation's petroleum shortage may result in thousands of motorists being deprived of gasoline before the end of July, according to a department of interior prediction.

"Government rationing of gasoline, however, is unlikely," a department spokesman said, "but it may be necessary for oil men to institute their own rationing system."

GIFT HORSE:
Danger Seen

Serious impairment of the nation's economic stability may result if the United States continues to "over-export" its resources and keeps up the present rate of foreign gifts and loans, Herbert Hoover, former Republican president, has warned.

"The greatest danger to all civilization" is the possibility that the United States will harm its economy "by drains which cripple our own productivity," Hoover said in a letter to Chairman Bridges (Rep., N. H.) of the senate finance committee.

He pointed out that an excess of almost eight billion dollars of American exports over imports has contributed to the inflationary spiral at home.

"Unless this one remaining Gibraltar of economic strength is maintained, chaos will be inevitable over the whole world," he said.

Hoover's statement, together with a similar cautionary note by Sen. Arthur Vandenberg (Rep., Mich.), were construed as representing a Republican demand for a thorough assessment of this country's economy before foreign aid decisions are made.

HOUSING:
Tough All Over

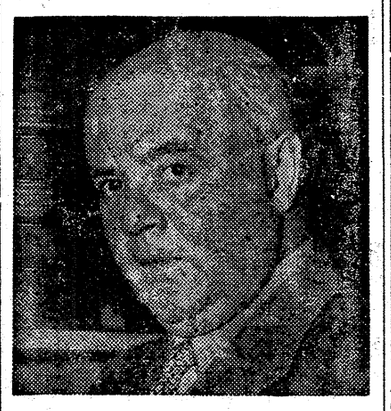

Shortage of housing isn't a problem peculiar to America. They have plenty of grief along that line in India, too.

In Bombay, which has a population of two and one-half million, there are 350,000 men, women and children who have no place like home. They sleep, eat, cook, bathe and carry on their sundry other household activities on the sidewalk or street.

Fortunate by contrast are another million and a quarter residents who jam together in one-room tenement quarters with an average of six persons to a room. Sometimes as many as 20 are found living in a single room, including two, three or four separate families.

Bombay's housing shortage is a hangover from the war, when the city's population doubled because it was an industrial center which remained free from Axis attacks.

Death Threat

FBI is investigating death threat note against the life of Rep. J. Parnell Thomas (Rep., N. J.), chairman of the house un-American activities committee. Note said, in part: "May I be the first to inform you that you will be relieved of your duties in June. This is not a threat or warning or bargaining. It is simply a death notice."

AROUND AGAIN:
World Flight

Milton Reynolds, holder of the round-the-world flying record, has announced that he will sponsor another globe-girdling trip on August 1 which will cross both the North and South poles.

Reynolds himself, however, will not make the flight. A new Bombshell——name of his world record plane—which will be a B-32, similar to the wartime B-29, will be used for the jaunt.

"Part of the flight over the South pole will be over territory never explored, and the new Bombshell will be a veritable flying laboratory, including radar altimeter equipment to determine the height of mountains and other terrain features over which the ship must pass," said Reynolds.

Estimated distance of the flight is 25,592 miles, provided a refueling stop is permitted in Siberia. Flying time is expected to be 100 to 110 hours.

REBIRTH:
A New Lidice

Lidice, the Czechoslovakian village which Gestapo troopers ruthlessly erased from existence in June, 1942, is taking its first, slow, painful steps toward restoration.

Five years and five days after the Nazis destroyed the little town with its population of 500 persons, a group of British miners set a gray block of granite into place as the cornerstone of a new Lidice.

Of the old town nothing is left except a great cross of weatherbeaten timber and crown of thorns marking the mass grave where the bodies of 178 village men were dumped by the Germans who had shot them to death.

Attending the ceremony of laying the cornerstone were 140 women, robed in mourning, and a few children—sole survivors of the original village. After the men were shot on that June day in 1942, the women were forced into concentration camps, children were scattered across Europe.

Siestas Interrupt Paraguay Civil War

General Sherman was right when he described war as being akin to that infernal region with the hot hinges — but Sherman probably didn't know about war as she is waged in Paraguay.

Now trundling amiably into its fourth month, the Paraguayan civil war, about which no one seems to know very much, proceeds at an oxcart pace and so far has not interfered with the pleasant Latin custom of the afternoon siesta.

Soldiers of the opposing armies—the government and the rebels—lay aside thoughts of war for about five or six hours every day to take a nap.

One correspondent who returned to Buenos Aires after an eight-day session in the front lines with the government troops said that during his stay their total casualties ran to two men and no horses.

Stimulated by a $250,000 state advertising fund, Michigan's tourist industry is all set for a banner season in 1947.

People have money in their pockets, and they are going places.

Robert McLaughlin, secretary of the Michigan Tourist Council, reports that 42,000 inquiries have been received from prospective out-of-state travelers. The council's offices in Chicago, Cleveland, Detroit and Lansing have been busier than last year supplying information about cottages and hotels.

"Michigan has more accomodations to offer travelers this summer than last year." said McLaughlin. "Easily 100 new cabins have been constructed throughout the state despite the shortage of materials and labor.

"There will be more travel on the Great Lakes. Steamship companies are extending their schedules.

"Air Lines and Bus Companies are doing the same. The New York Central has a brand new tourist train called the 'Timber Liner' which will operate between Detroit and Mackinaw City. The train has a bar car with interior of knotty pine — something new.

"Although the legislature did not act on a bill sponsored by Senator Don VandedWerp to move up Labor Day two weeks to mid-September, their is a definite trend towards a longer tourist season in Michigan. For example the legislature adopted a bill to permit shooting of deer by archers in advance of the regular deer hunting season. This is limited to 15 counties in Northern Michigan.

"Winter Sports have been growing in popularity each year, and next winter should see a further extension of this trend. Fall colors tours are a natural for Michigan. We should capitalize more on our beautiful falls.

"Michigan is due to receive nationwide publicity through two tehnicolor films to be made this summer by James FritzPatrick, maker of professional travelogue pictures. One of the FritzPatrick films will portray Michigan's scenic attractions as 'Queen of the Inland Seas.' Our lakes and coast-lines are unique; we excel in our abundance of waters. The second film will probably feature some of the out-standing scenic and historical spots of the state.

"The April 25 Issue of theU.S. News forcast that the nation's tourist business in 1947 would reach the ten billion mark. If this is true, then Michigan's share, based on six to eight per cent, will reach an all-time high.

"Remember that people can buy all kinds of tires and gasoline they want. Many travelers have brand new cars, and they naturally want to use them. All in all, the prospects are very bright. If we get a break in the weather, Michigan should have a banner season."

Two Michigan towns — Croswell and Traverse City — are celebrating Centennials this summer. Croswell's observance will be held July Fourth, while the cherryland capitol will follow the week after. The Lowell Showboat begins the week of July 21. County fairs and regional festivals will provide a variety of entertainment for those who stay at home and travelers who visit our state.

From where I sit ... *by* Joe Marsh

Crazy Hat Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarrah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarrah.

From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarrah's, with never a criticism; just as she's put up with Ed's pipe and the other little freedoms he enjoys.

They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarrah's hats taking first prize . . . but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

Rural Health

In comparison with city folks, more farm boys were turned down for military service, more mothers died in childbirth, more infants failed to survive, and there were more deaths from diphtheria, malaria, pellagra, pneumonia and influenza.

LEGAL

PROBATE ORDER
Hearing of Claims

State of Michigan. The Probate Court for the County of Charlevoix.

In the Matter of the Estate of Lavina Brintnall, Deceased.

At a session of said Court, held in the Probate Office in the City of Charlevoix, in said County, on the 17th day of June 1947.

Present: Rollie L. Lewis, Probate Judge.

The above estate having been admitted to probate and Ethel Brown having been appointed Administratrix.

It is Ordered, That 2 months from this date be allowed for creditors to present their claims against said estate for examination and adjustment, and that all creditors of said deceased, are required to present their claims to said Court, at the Probate Office in the City of Charlevoix, on or before the 3rd day of September, 1947, at ten o'clock in the forenoon, at which time claims will be heard.

It is Further Ordered, That public notice thereof be given by publication of this order for three successive weeks previous to said day of hearing in the Charlevoix County Herald, a newspaper printed and circulated in said county.

ROLLIE L. LEWIS,
adv 26-3 Judge of Probate.

Roscoe Barber, with the East Jordan Canning Co., sprayed the Healey cherry orchard Tuesday with the new sprayer.

Mr. and Mrs. Lewie Kitson of the old Harlow Sweet farm, and Mr. and Mrs. A. G. Reich and son Donnie of Gravel Hill, south side, spent Saturday with the A. Reich family at Lone Ash farms. The men folks sprayed the cherry orchard.

Mr. and Mrs. F. K. Hayden and daughters Kay and Mary Ann and sons Larry and Douglas of Pleasant View farm spent Sunday afternoon with the Leo Beyer and Ira Lee families near East Jordan.

Kenneth Russell of Maple Lawn farm spent last week with his brother-in-law and sister, Mr. and Mrs. Sam Kamradt and family of Traverse City. The Kamradts brought him home, Saturday.

Mr. and Mrs. Sherman of Detroit, the last owners of what is locally known as the White Cherry Orchard, but to us old timers, the John Sandford farm, one of the most beautiful ly located farms on the Peninsula, have about completed their new home and will soon occupy it. The beautiful old place is one of the pioneer farms but has not had a permanent occupant since the Sandford family moved away, way back no one can remember when. The Shermans plan to make a fruit farm of it. That the old place will really be a home again seems too good to be true.

There were 17 at the Star Sunday School, June 22.

Dr. VanDellen of East Jordan made a professional call on Mrs. F. D. Russell at Ridgeway farms, Friday. Mrs. Russell is still a very sick woman.

Mrs. Byrel Riley and two children, and her uncle, Art Nellson of near Kalkaska, were Saturday dinner guests of Mrs. Riley's parents, Mr. and Mrs. Orvel Bennett and family.

"Such a lucky lady—with a pretty house, nice husband and children—and lots and lots of servants!"

"You're wrong about the servants. I live in a 6-room house, and balance a budget!"

"But, Madam, you have servants to help you in every room! And you pay them very little, indeed. You have a servant to assist with your laundry. Another to help cook your meals. A third to protect your food. A fourth to clean. More to heat and light your home, and entertain you when you're bored. You have electrical servants, Madam—the most willing and dependable servants in the world!"

"Of course, I have electricity but I never thought—"

"This army of domestic help costs you less than a bottle of milk a day! So you see electric service is not only high in efficiency, it's low in cost! Twenty years ago the average family got only half as much electric service for the money as it gets today. And think how many more jobs electricity does around the house in 1947! Yes, Madam, yours is a very good fortune, indeed!"
